RESTRICTION RESPONSE

COMMISSIONER FOR PATENTS
ALEXANDRIA, VIRGINIA 22313

SIR:

This is responsive to the Restriction Requirement mailed December 1, 2003.

Applicants elect, with traverse, Group I, Claims 1-23 and 49-52 for examination.

The Examiner states that the inventions of Groups I-IV are not so linked as to form a single general inventive concept under PCT Rule 13.1, because they lack the same or corresponding special technical feature, since Claim 1 is anticipated or obvious over three references.

Applicants disagree with the Examiner's statement that Claim 1 is anticipated or obvious over three references but, assuming *arguendo*, the references do anticipate or make obvious Claim 1, the Examiner is referred to annex B of M.P.E.P. 1800, Instructions concerning unity of invention, (c)(ii) in which is stated that, if an independent claim does not avoid the prior art, then the question whether there is an inventive link between all the claims still needs to be considered. The inventive link between all the claims is established by the fact that the claims of Groups II, III, and IV all refer back to claims of elected Group I.

Application No. 10/062,413
Reply to Restriction Requirement of December 1, 2003

Therefore, it is submitted that there is still an inventive link between the claims of Groups I-IV and, therefore, the restriction requirement should be withdrawn and all the claims examined on the merits.

Further, the M.P.E.P. §803 states that "If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions". Applicants respectfully submit that a search of all the claims would not impose a serious burden on the Patent & Trademark Office.

Finally, if the claims of Group I are ultimately found allowable, it is requested that the claims of Groups II-IV be rejoined under M.P.E.P. §821.04 and allowed, also.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
